

I have retained the services of Mike Harper in obtaining group term life insurance, accidental death coverage and long term disability coverages for the past twelve years or so. Mike also interacts with company retirees in keeping Medicare prescription coverages up to date and meeting the changing needs of the retirees due to age or medical conditions. Mike is well educated in his fields; cordial, friendly and works extremely well with my employees and retirees.

Would I change where I do my business? At the risk of open mutiny from my group of very active and opinionated retirees? – A very simple no. My own opinion? Can I get insurance and services elsewhere at a less expensive cost? Maybe. Then I would not have Mike. I trust him for both my business and as a friend. That is something that you cannot purchase at any price.
